Publication	Abs Title	
20060168325	(A) Control of a copy of an original document cached on a remote client computer	25-
20060161746	(A) Directory and file mirroring for migration, snapshot, and replication	3-
20060161585	(A) Method and system for transitioning between synchronous and asynchronous communication modes	14-
20060161516	(A) Method and system for synchronizing multiple user revisions to a shared object	14-
20060149889	(A) Method and system for backup data access through standard network file sharing protocols	5-
20060143192	(A) Bulletin board system (BBS) implemented on server computer in which BBS items are stored as files in accordance with native file system of server computer	28-
20060112150	(A) Server for synchronization of files	5-
20060101099	(A) Method and system to provide files to a client computer	11-
20060101064	(A) Method and apparatus for a file sharing and synchronization system	8-
20060095470	(A) Managing a file in a network environment	4-
20060089954	(A) Scalable common access back-up architecture	12-
20060080409	(A) Device for producing and or configuring an automation system	26-
20060080385	(A) System, method, and medium for configuring client computers to operate disconnected from a server computer while using a master instance of the operating system	8-
20060080371	(A) Storage policy monitoring for a storage network	30-
20060075071	(A) Centralized management of digital files in a permissions based environment	21-
20060074925	(A) Pathname caching and protection of the root directory in a nested multilayer directory structure	21-
20060053333	(A) Systems and methods for backing up data	7-
20060047716	(A) Transaction based virtual file system optimized for high-latency network connections	2-
20060041726	(A) Mirrorpc computer backup system	15-
20060041527	(A) Virtual file system	3-

Publication - Abs Title

20050004955	A System and method for synchronous maintenance of remote template files	6-
20050004941	A Fingerprint database updating method, client and server	24-
20040267832	A Extended storage capacity for a network file server	26-
20040267830	A Transparent file migration using namespace replication	23-
20040267752	A Transparent file replication using namespace replication	23-
20040267697	A File storage network	25-
20040267557	A [ELECTRONIC DATA MANAGEMENT SYSTEM AND METHOD USING REMOTE SYNCHRONIZED BACKUP TECHNIQUE FOR SPECIALIZED OUTSOURCING]	17-
20040254975	A Method for managing applications and data in a limited capabilities environment via remote virtual hosting and management	14-
20040254936	A Mechanism for evaluating security risks	13-
20040243727	A Computer storage device having network interface	2-
20040236752	A Document sharing in a distributed server system	19-
20040221019	A Automatic migration of data via a distributed computer network	29-
20040205088	A Method and apparatus for moving data between storage devices	14-
20040203624	A Technique for sharing of files with minimal increase of storage space usage	3-
20040199508	A Methods, apparatus and articles of manufacture for computer file integrity and baseline maintenance	1-
20040186859	A File access based on file digests	20-
20040186844	A Backup and restore for heterogeneous file server environment	15-
20040162876	A System and method for providing conditional access to server-based applications from remote access devices	13-
20040158607	A System and method for associating an email attachment file with a storage location	6-
20040143652	A System and method for handling digital content delivery to portable devices	17-

20040133629	(A) Methods, systems and devices for automated web publishing and distribution	13-
20040133444	(A) Version control system for software development	19-
20040122917	(A) Distributed storage system for data-sharing among client computers running defferent operating system types	18-
20040111604	(A) Method and system for protection against unauthorized distribution of copyrighted computer files over peer-to-peer networks	4-
20040073560	(A) File synchronisation	28-
20040068523	(A) Method and system for full asynchronous master-to-master file synchronization	7-
20040068516	(A) System and method for synchronizing files in multiple nodes	30-
20040068505	(A) System and method for synchronously editing a file on different client computers	30-
20040054800	(A) Content synchronization frameworks using dynamic attributes and file bundles for connected devices	28-
20040054756	(A) Business methods and hardware to implement same	27-
20040049520	(A) System, method, and apparatus for sharing revision control databases	5-
20040044748	(A) Business methods and hardware to implement same	27-
20040044581	(A) Business methods and hardware to implement same	27-
20040019888	(A) System for installing software	24
20040019640	(A) System and method for distributing shared storage for collaboration across multiple devices	25
20040015831	(A) Method and apparatus for building software packages	31-
20040010471	(A) Multi-site software license balancing	9-
20040010440	(A) Predictive software license balancing	10
20040006578	(A) System and method for distributed concurrent version management	27-
20040002990	(A) Shared drive that provides shared access to editable files in a database	28-
